Coronavirus- Government AND School Advice

Families must help to drive down the infection rates nationally by following the advice below. If the following tables are unclear and your child is unwell, **please keep your child at home** and call the school and a staff member will talk you through the action you need to take.

Symptom	Action	Information and Support	Return to school
A new continuous cough of your child OR another person living in the house	<p>Keep your child at home and call the school. We will set up a google classroom for learning at home.</p> <p>Your child AND the other people living in the house should self isolate.</p> <p>Siblings CAN NOT attend school either.</p>	<p>Inform the school.</p> <p>Call 111 for advice.</p>	<p>14 days isolation OR if a negative test is received for the person in the house with the symptoms.</p> <p>Your child(ren) must not return to school until you have spoken to a medical practitioner AND to the school and permission is given for return.</p>
Temperature of your child OR another person living in the house	<p>Keep your child at home and call the school. We will set up a google classroom for learning at home.</p> <p>Your child AND the other people living in the house should self isolate.</p> <p>Siblings CAN NOT attend school either.</p>	<p>Inform the school.</p> <p>Call 111 for advice.</p>	<p>14 days isolation OR if a negative test is received for the person in the house with the symptoms.</p> <p>Your child(ren) must not return to school until you have spoken to a medical practitioner and to the school AND permission is given for return.</p>

<p>Loss of sense of smell or taste of your child OR another person living in the house</p>	<p>Keep your child at home and call the school. We will set up a google classroom for learning at home.</p> <p>Your child AND other the people living in the house should self isolate.</p> <p>Siblings CAN NOT attend school either.</p>	<p>Inform the school.</p> <p>Call 111 for advice.</p>	<p>14 days isolation OR if a negative test is received for the person in the house with the symptoms.</p> <p>Your child(ren) must not return to school until you have spoken a medical practitioner AND to the school and permission is given for return.</p>

Vomiting and Diarrhea

If your child has either of the above, they should not be in school for 48 hours from the last time they were sick/ had an upset stomach.

General Illness

If your child is not well enough to be in school in the morning, they should not be in school. We do not have the provision to have children in the welfare office at this point in time.

Thank you for your support in these unusual times.
